2D Tiki Toon Assets Character 1

Hi

Many thanks for downloading the tiki toon asset Character1, this is part of the 2D environment "2D Tiki Toon" which can be found on the asset store at <https://www.assetstore.unity3d.com/en/#!/content/18327>

The animations included are

1. Walk
2. Die
3. Take out hammer (reverse frames to put back)
4. Hammer hit

Should you have animations on your wish list please don't hesitate to let me know at declan@AtomicVertex.com . All animations are hand drawn and painted and take time to create. So if you have wishes, I will do them, it will take time, and i will contact you :)

I have left the animation frames at the size i animated them so you might want to do a resize to suite your needs.

Have fun!

Declan
